

ORGAVIT PREMIX-V

Multivitamin Premix

Composition : Each kg. contains :

Vitamin A	: 100,00,000 IU
Vitamin D ₃	: 25,00,000 IU
Vitamin E	: 20,000 mg
Vitamin K ₃	: 1000 mg
Vitamin B ₁	: 1400 mg
Vitamin B ₂	: 2750 mg
Vitamin B ₃	: 4500 mg
Vitamin B ₆	: 3000 mg
Vitamin B ₉	: 1000 mg
Vitamin B ₁₂	: 10 mcg
Vitamin H	: 50 mcg

Vitamin A (10000 IU/gm): It helps to improve reproduction process, immune response mechanism and growth.

Vitamin D₃ (2500 IU/gm): It plays an important role in the regulation of calcium and phosphorus metabolism in growing birds. Also plays important role in the mineralization of the skeletal tissues.

Vitamin B₁ (1.4 mg/gm): It plays crucial role in the metabolism of carbohydrates and proteins to produce energy for growing birds. As well it helpful to maintain nervous & cardiovascular system.

Vitamin B₂ (2.75 mg/gm): It helps to convert carbohydrates into energy and it also essential for growth & production of red blood cells.

Vitamin B₆ (3 mg/gm): It helps in the formation of red blood cells

Vitamin B₉ (1.0 mg/gm): Essential vitamins in red blood cell maturation & for body growth

Vitamin B₁₂ (10 mcg/gm): It is required for growth, for hemoglobin & red blood cell formation and for hepatic regeneration.

Vitamin K₃ (1 mg/gm): It is required in small amounts for various biochemical functions especially in chicks & growers. Chicks on rations deficient in vitamin K3 causes death due to bleeding from injuries caused by rupture of blood vessels or due to other various reasons.

Vitamin E (20 mg/gm): Acts as an antioxidant, also it helps to regulate carbohydrate, glycogen & hormone metabolism.

Vitamin B₃ (4.5 mg/gm): Niacin helps the digestive system, skin and nerves to function. It is also important for converting food to Energy.

Vitamin H (50 mcg/gm): Biotin assists in metabolism of carbohydrates, fat & proteins. It acts as a coenzyme, involved in energy production.

Benefits:

- Prevents all vitamin deficiency symptoms and losses.
- Avoids stress of all kinds.
- Improves general health, immunity, growth, body weights, feathering, egg production, hatchability etc.
- Adds additional value to feed and its nutrients.
- Increases feed conversion efficiency.

Dosage :

Layer Feed : 1 kg /ton of feed.

Breeder Feed : 2 kg/ton feed.

Fish Feed : 2 kg/ton of feed.

(or) as advised by a nutritionist.

Presentation:

10 kg bag.
