

GASOUT

For Control of Bloat

COMPOSITION :

Essential oils having antizymotic and antacid properties.

BENEFITS :

1. It is a best anti frothing agent and breaks the froth and makes the route clear for easy expulsion of gases.
2. It is also a best antizymotic agent and stops excess fermentations as well as production of excess gases.
3. It is palatable with good natural flavour and well accepted by the animal for oral administration.
4. Very safe, no side effects in the true stomach.
5. Animal feels nil stress unlike in other chemical preparations for the same purpose.
6. Very effective, quick action and animal feels complete relaxation immediately after administration.
7. Helps to maintain normal ruminal pH.

DOSAGE :

Cattle / Buffaloes / Horse : 100 ml. / animal
Sheep & Goats : 50 ml. / animal as single dose.
(or) as advised by a veterinarian.

Note : If the problem is severe repeat the dose with in 2 hours.

PRESENTATION : 100 ml.
