

ELECTRO C

Oral Solution

4-IN-1

- ✓ **ELECTROLYTE**
- ✓ **VITAMIN C**
- ✓ **BETAINE**
- ✓ **EUCALYPTUS OIL**

HEAT STRESS COVERAGE

All chickens are susceptible to heat stress, particularly older birds. High temperatures and humidity causes reduced growth rates, egg production and hatching rates.

ELECTRO C is an association of electrolytes : Na⁺, K⁺ and Mg⁺⁺, plus vitamin C, to be administered in the drinking water during stress conditions and disease challenge. The addition of Betaine causes an osmoregulator effect. Eucalyptus oil is an effective cooling agent, thanks to its anti-inflammatory properties. With these eucalyptus oil opens up blood vessels and boosts blood circulation.

COMPOSITION: Sodium (Na⁺) 8 mg, Potassium (K⁺) 50 mg, Magnesium (Mg⁺⁺) 18 mg, Vitamin C 30 mg, Betaine 50 mg, Eucalyptus oil 50 mg and Excipient q.s. 1 ml.

BENEFITS:

Replenish electrolytes in cases of scours with metabolic acidosis and as source of body salts to compensate losses due to hot weather.

Stimulates water consumption after drug usage and vaccinations.

Enhances early feed consumption and stimulation of the appetite as well as the kidney function.

TARGET SPECIES:

Poultry and livestock.

USAGE: ORAL ROUTE IN DRINKING WATER. 1ml/liter of drinking water.

STORAGE CONDITIONS : Keep in dry, cool place protected from direct light. Keep out of reach of children.

PRESENTATION: 1-5 and 220 Ltr
